Chevrolet Service and Shop Manual

Factory manual that gives all the information you’ll need for servicing your Impala, Bel Air, Biscayne and Caprice. Each shop manual includes procedures for maintenance and adjustments, minor service operations, removal and installation of components (excluding the body) and a wealth of General Motors service operations techniques. If there is one book devoted to the care of your Impala, this is the one! This manual covers the entire Chevrolet line (excluding Corvette). Whether you own an Impala or another Chevrolet model, these manuals will supply the important and pertinent information for correct maintenance procedures. Written by General Motors. A must for any B-body owner.

Note: This book covers the service aspects of the mechanical operations of the vehicle. For body and interior, see the Fisher Body Service Manual.

Fisher Body Manuals

All Fisher body manuals have complete information on the essential removal, installation and adjustment procedures for servicing each year full size. Information includes interior trim cleaning, headlining, stationary glass, door panels, rear seat shelf, convertible top, electrical and more. This manual covers the most essential information pertaining to the body. Unlike the shop manual, you’ll find unique information, illustrations, and other information found nowhere else. We recommend this manual for any Chevrolet owner who intends to keep and maintain their vehicle.

Note: This book covers the body aspect of the vehicle. For mechanical operations, see the Chevrolet Service / Shop Manual.

1955-75 Chevrolet By The Numbers

Chevrolet by the numbers is the only authoritative reference for identifying and verifying the correct Chevrolet parts by casting number, for your exact model. Author Alan Colvin documented every casting number for every V8 Chevrolet engine and drivetrain part from 1955 through 1975, using original source material from Chevrolet’s archives, including engineering blueprints, technical service bulletins and build sheets. Every engine is covered from the ultra-rare, high-performance aluminum 427 for the ZL-1, to the common 283 found in Impala station wagons. All engine blocks, cylinder heads, pistons, connecting rods, crankshafts, camshafts, manifolds and more, are listed. If you want to know the original parts for your Chevrolet drivetrain, or what will interchange or fit, but the correct part that came with your car when it rolled off the assembly line, Chevrolet by the numbers has the answer. Softbound, 8-3/8” x 11”.

Casting Numbers-Cowl Tags-Suffix Codes

These guides will give you information regarding casting numbers, what suffix number goes with the head casting number, what exhaust manifold numbers go with these castings and so on. The casting numbers are listed in two ways: 1) By the year: This is great when you have a particular restoration which requires the correct casting number. 2) By casting number: When you want a particular casting number, you can quickly look it up numerically. This book also lists the more common part numbers associated with restoration. These are also listed two ways: 1) By group number: Just like factory manuals so you can order direct. 2) By part number: An easy way to zip down the list and find it numerically. Each book will give you a full factory description along with what years they are associated with. Suffix Code Books: These guides include the most important codes on the engine. With suffix code guides you will be able to decode virtually all Chevrolet V8 engines. From the factory codes stamped on the block, you can decode the original car the engine was installed on, cubic inch and horsepower, transmission, intake, RPO and other options.

My Classic Car DVD Collection

American automobiles have been around since the early 1900s, but in the 50s, 60s, and 70s they became part of American culture, and they gave America an identity. With the help of Dennis Gage you can take a look at the cool cars of the fifties and the muscle cars of the 60s and 70s. In Cool Cars of The Fifties, take a nostalgic ride in such classics as a 1948 Tucker, 1955 Bel Air, 1954 Buick Riviera and 1950 Mercury just to name a few. Or take a pedal to the metal ride with such muscle machine manufacturers as Chevrolet, Ford, Buick, Oldsmobile, Pontiac and the Mopars. Also available is Jay Leno, Certified Car Nut. Dennis takes you inside Jay’s garage to look at his collection and take some of his favorite cars and motorcycle for test drives.
