Halogen/Xenon Headlamps

These conversion headlamps feature lead crystal lens with "E" mark certified precision optics, steel-stamped reflector and self-sealing rubber boot to protect the optic unit from dust and moisture. They are equipped with halogen H4 60/55W or xenon hyper white bulbs, which are 50% brighter than standard halogen bulbs, for superior performance. Your choice of classic looking convex lens or more modern looking flat lens. Applications to fit four headlamp or two headlamp systems.

Diamond Cut Headlamp Technology

Replace your standard "yellow light" headlamps with these unique looking halogen diamond cut headlamps for increased visibility, safety and a unique custom look. These headlamps install much like a standard sealed beam unit, but they allow the use of an H4 halogen bulb in your choice of color and wattage. You'll enjoy the extra brightness usually associated with high end luxury and expensive sports cars. The diamond cut reflector concentrates the beam on the road in front of you. Your choice of a variety of halogen bulbs are available in 6 different colors. H4 Bulb Included.

1149 - with profile view

7" Crystal Headlamp Bulb w/Auxiliary LED's

These crystal headlamps with auxiliary LED's give your classic ride a modern look. The aluminum reflector is a reinforced, multi-faceted design for maximum vibration resistance. A HB2/9003 65/55W 12V halogen bulb replaces H6017/H6024 bulbs to meet DOT/SAE standards, Choose from 10 or 34-LED auxiliary lighting.

CP500121 amber LED's....................... 79.99 ea
CP500122 white LED's....................... 79.99 ea

5-3/4" Blue Dot Crystal Headlamp Bulb

Add a classic blue dot look with these 5-3/4" crystal headlamps. Reinforced aluminum reflector, rugged anti-vibration construction. A 12V 65/55W SAE-9007 halogen bulb replaces H5001/H5006 bulbs. SAE approved.

CP500123 .................................. 37.99 ea

5-3/4" Round Crystal Headlamps

Replace your burnt out or missing headlamps with this crystal headlamp. Replaces H5001/H5006 bulbs. Reinforced multi-surfaced with aluminum reflector. Rugged anti-vibration construction.

CP031386 .................................. 31.99 ea

7" High Power 11 LED Crystal Headlamp

This 7" headlamp uses eleven high power LED to improve visibility, providing a white light similar to daylight. An impact resistant polycarbonate lens provides unparalleled protection from road hazards, while the solid state design resists shock and vibration. Meets SAE/DOT FMVSS108 standards.

CP500518 .................................. 439.99 ea

Projector Style Headlamps

Projector headlamps embody the classic look while substantially upgrading the quality and spread of light. The unique hi-low switch design provides a clean and safe light cutoff design, eliminating the issue of "headlight dazzling" on the roads. Each unit features a 42mm Bi-Xenon projector (high and low beams) with adjustable light focus and flat light distribution to prevent blinding of oncoming traffic. Available with a traditional chrome housing or with a black housing and city light built into the unit. Bulbs and wiring is included.

**Bulbs/Fog Lamp Parts**

**1982-02 GM Replacement Fog Lamps**

Because fog lamps are mounted so low, they tend to be prone to damage from rocks, parking blocks and the like. If you drive your 1982-02 Firebird regularly, you will no doubt suffer some kind of fog lamp damage eventually. When that happens, replace the cracked or broken fog lamps with these original GM replacements.

**All Models:**
- G4908 1993-02 .................................... 15.99 ea
- G4909 1993-07 .................................... 298.99 ea
- Firebird, Formula, 3800 GT

- MX01106 for 4 headlamp system ........ 27.99 set
- MX01105 for 2 headlamp system ........ 29.99 set
- MX01104 for 9005/9006 system .......... 25.99 set

**1995-02 Fog Lamp Relay**

A relay is typically used to control a component that draws high amperage. The relay allows full power to the component without needing a switch that is heavy duty enough to carry the amperage. Such is the case with the fog lamps on your Firebird. If your fog lamps do not come on and the bulbs are in good condition, it may be time to replace the relay.

**1993-02 Fog Lamp Connector and Wiring**

Original GM replacement fog lamp connector and wiring pigtails for 1993-02 Firebird.

- G4911 1993-02 .................................... 16.99 ea

**Heavy Duty H4 Harness & Relay Set**

This wiring harness set upgrades the stock headlamp wiring on your vehicle to provide your new H4s with maximum power and decrease the chance of overloading the stock wiring and connectors. Power will be drawn directly from your battery, eliminating voltage drops and ensuring headlamp system reliability. The upgrade kit installs easily in 5-10 minutes without any cutting or splicing. Simply plug into your factory headlamp sockets, attach positive connectors to battery terminal and ground wires to the body of your vehicle. Two 30 amp relays provide added protection for your headlamp switch and wiring harness.

1969 Headlamp Rear Support Bracket
A correct reproduction of the headlamp rear support bracket used to hold the headlamp mounting bucket to the main headlamp mounting brace. Installs on all 1969 Firebird models. This part is used for all four headlamp beams. 4 required per vehicle.

1974-78 Headlamp Beam Adjusting Spring
This adjusting spring allows your headlamp beam to adjust. This spring is a necessary part when adjusting your headlamp beam.

1993-97 HeadlampPanel
Original GM headlamp panel for 1993-97 Firebird models. Headlamp assemblies or motors not included. Features all original bracing and is EDP coated for rust prevention. Note: Shipped double oversize.

1987-92 Deluxe Headlamp Repair Set
If your headlamp motors run, yet they fail to raise or lower the headlamps, this rebuild set will solve your problem. Inside the motor unit is a nylon gear that contains 3 solid gel bushings that transfer the load from the gear to a 3-lobe cast hub that is part of the actuator shaft. These bushings harden and crumble with age and will no longer turn the hub to raise and lower the headlamp assembly. This set contains enough parts to replace the bushings in two headlamps.

1982-02 Headlamp Motor Gear Repair Set
The original plastic headlamp motor gears on 1982-02 models are easily stripped because they operate against a metal worm gear. These replacement gears are CNC machined from bar stock brass for durability that will last the life of your car. Installation requires simple hand tools and includes instructions. Sold individually. 2 required.

1987-92 Headlamp Motor Gear Pellets
Reproduction headlamp motor gear pellets for 1987-92 Firebird models. These are the small plastic bushings that are installed inside the headlamp motor. Sold as a set of 3.

193-02 Headlamp Support Brackets
Original GM headlamp support brackets for use on 4th generation Firebird models. See the listing below for correct applications.

1969 Headlamp Mounting Set
Replace your damaged headlamp mounting pieces with these quality reproductions for 1969 Firebird models. This set includes the headlamp retaining rings, headlamp inner bezel which mounts behind the bezel cushion, and the headlamp buckets with the backing plate.
### 1969-72 Park Lamps

#### 1969-73 Park Lamp Bezels
Reproduction parking lamp bezels for 1969-73 Firebird models. Each bezel is an exact reproduction of the original. 2 required per car. 5960557 1969-73 ......................................... 29.99 ea

#### 1969-73 Park Lamp Housing
We offer correct reproduction park lamp housings for all 1969-73 Firebird models. These housings will replace your originals exactly. 2 required per car.

#### 1969-73 Park Lamp Fillers
Correct replacement park lamp fillers for 1969-73 Firebird models. These fillers are installed between the park lamp housing and the valance.

#### 1969-73 Park Lamp Gaskets
This is a beautiful high quality reproduction park lamp lens for 1967 Firebird models. Each lens will install and fit exactly as original.

#### 1977-81 Park Lamp Assembly
Reproduction front park lamp assembly for 1977-81 Firebird models. These assemblies include the lens and housing and will fit and function as original.

#### 1982-90 Park Lamp Assembly
Original GM park lamp assembly for 1982-90 Firebird models. Assemblies include the housing and lens assembly for easy installation.

#### 1988-90 Park Lamp Assembly
Original GM park lamp assembly for 1988-90 Firebird models. Each assembly includes the housing and lens assembly for easy installation.

#### 1988-90 Park Lamp Bulbs
Each bulb fits exactly as original. A molded plastic connector is used to hold bulbs in the park and turn signal housing. The socket has lugs that lock into the lamp body and connect the bulb to the power source. Fits 1967-02 Firebird models.

#### 1979-99 GTS Front Lamp Covers
Front lamp covers are the answer to stylish protection for today’s expensive headlamps, turn signals and driving lamps. Custom designed for your Firebird, Firebird SE, Formula or Trans Am, you're assured of a perfect fit straight out of the box! Choose from two unique grades: clear or smoke for a personal look to distinguish your car from anyone else’s! These headlamp covers offer simple “no holes to drill” installation and are paintable for a wild custom look! Simple removal means easy cleaning and quick changes for show or go! Note: These products are intended for show, competition and off-road use only. Never drive on public streets or highways with headlamp covers on your vehicle.

The "TattleTale" Pulsing Brake Light

Designed to get attention, an inertia switch (which is adjustable by you, using supplied installation bracket) detects panic stop situations and relays the brake signal through an electronic pulsator. Under normal braking situations the brake lights react normally, but when hard braking occurs, the lights pulse rapidly, alerting other drivers of a panic stop. This system is great for 3rd brake lights and is for use with systems up to 60 watts (5 amps). Simple and easy to install. Includes installation instructions.

1967-81 Sequential LED Lamps

This is the latest thing in tail lamp technology! These LED replacements for your factory tail lamps fit perfectly behind your factory lens and bezel, and are far quicker responding and much brighter than DOT requirements! These sets use very high intensity, wide angle LEDs for an exceptional way to increase visibility and add an extra aesthetic touch to your Firebird. They provide two modes of operation, standard or sequential. The sequential mode gives you a unique cascading affect that will really get you noticed!

Note: Lamp lenses, bezels and housings sold separately. Tail lamp circuit boards only.

1967-81 Multi-Pattern Sequential LED Tail Lamp Panels

Animate your tail lamps and make your Firebird stand out! These LED panels feature a self-contained microprocessor and circuitry to enable multiple sequential lighting patterns. Make the light pattern flow at various speeds from the center of the lens optics that you can see and feel.

Note: Lamp lenses, bezels and housings sold separately. Tail lamp circuit boards only.

1969 Firebird Billet Tail Lamps

These billet tail lamps fit 1969 Firebird models exactly like the originals, but the tail lamp bezels are CNC machined from T6061 aluminum and feature high quality lens optics. Sold individually.

1970-73 Tail Lamp Lenses

OER® reproductions of the tail lamp lenses for 1970-73 Firebird models. These reproductions feature correct “Guide” lettering and SAE markings. Available for LH or RH sides. Sold individually. 2 are required.

1970-73 Tail Lamp Bezels

1969 LED Tail Lamp Upgrade

These LED tail lamp conversions are truly a safety enhancement for your classic car. They fit neatly beneath the stock lens while maintaining a stock appearance when the lights are off. Given this “invisibility”, these products appeal to both modified and restored cars alike. Includes two LED arrays, electrical harnesses, connectors, necessary brackets and attaching hardware.

Note: 2 pair required per car.
1967-73 Tail Lamp Lens Gasket

We offer these reproduction tail lamp lens gaskets for 1967-73 Firebird models. You'll find that after years of use your original gaskets can become brittle and worn out. It's an inexpensive way to protect your investment.

**1983-02 Neutral Safety Switch Relocation Kits**
On the 1969-81 Firebird and 1973-81 Camaro, the neutral safety back up switch was originally mounted to the steering column and controlled by a rod from the transmission instead of the floor shifter. Installation of headers and overdrive transmissions often leads to malfunctioning reverse lamps and even accidental starting of the engine with the transmission in gear.
With these relocation kits the switch can be moved to the floor shifter, resolving these issues.
Important: * Requires the use of a 1968 Firebird column switch. Switch not included ** For correct operation shifter must be converted for overdrive use.

**1967 Rear License Lamp Gasket**

LED Replacement Light Bulbs

Brighten up your tail and backup lamps with these direct replacement LED bulbs. LED lighting is safer than conventional incandescent bulbs, shining up to 3 times brighter and lighting up more quickly. Plus they last longer, don’t get hot, and require fewer amps. LEDs flash on almost instantly, in approximately .05 seconds, giving the driver behind you valuable reaction time. These are available in the common dual contact 1157 tail/stop lamp bulb and the single contact 1156 backup lamp bulb.

**Front Sheet Metal Hardware Set**

Need to replace rusted, mismatched, or missing pieces, fasteners and hardware for your front end? Get new washer head pointed cap screws, plastic clip nuts, fender shims, fender washers, head bolts, and more! This comprehensive set includes correct fasteners to mount the fenders, fender skirts, grill moultings, C35 headlight bezels, and other various front end items. This hardware features original-style markings on the bolts in the correct color. 1967-68 kits include the correct 5/16" fixed washer bolts with the original "C" marking and three lines. Also includes the larger washers on 3/8" fender bolts.

C37 1982-92 ............................................................................. 62.99 set

**1967-69 Front End Indented Head Bolt Set**

Correct 5/16" indented black oxide bolts used for radiator supports, fender to radiator supports, hood latch support, and fender to radiator support attachment. Includes 20 bolts. This is a great set for the enthusiast who demands perfection. Great for show cars. Get extra points by simply having the correctly marked bolts.

K0068 1967-69 ............................................................................. 19.99 set

**1967-69 Radiator Support to Bumper Filler Panels**

Correct reproductions of the original radiator support to bumper filler panels. The 1967-68 panels do not include notches on the edge which sits against the radiator support. The 1969 version includes notches to allow access to the locating holes on the radiator support to mount the air conditioning condenser if necessary. Originally installed on Firebird models with factory air conditioning and or 400 V8 engines. Includes two pieces ready for installation. Installation hardware kit includes: 4 rubber bumpers and 6 mounting screws.

1970-81 Factory Look Splash Guard Kits

Add a front and rear splash guard kit to your 1970-81 Firebird or Trans Am to protect against stone chips, splashing mud and other flying debris. These aftermarket guards are designed to match the style and shape of the 1970-81 Trans Am factory front and rear side spoilers. Although these splash guards were never available from the factory, once installed, you'll swear they look like original equipment. Mounts behind the front and rear wheels with provided hardware. Each kit comes complete with front and rear splash guards, mounting hardware and a 15 foot roll of welting. Some drilling of fenders is required for installation. These look great on a base model Firebird or on Trans Am models even when the car is equipped with factory style T/A spoilers.

Note: No further discounts apply.

1982-88 Firebird Z20 Style Spoilers

Reproduction of the side spoilers mounted in front of the wheels on 1988 Firebird models with the very rare Pontiac Z20 option. The Z20 option was only available as a dealer installed option in 1988, but can be installed on any 1982-88 Firebird model. The side spoilers are manufactured from urethane as original with correct mounting points. The aftermarket rear deck lid spoiler is a duck tail design that has not been available for years. Manufactured from fiberglass, the rear spoiler is designed with a very similar look to the original Z20 rear spoiler. Mounting hardware is included with all items.

Add a Unique Appearance to 1994-02 Convertibles!

These tonneau covers were designed for the convertible enthusiast who wants more than a factory appearance. They provide a performance look while maintaining the original appearance of the car. Made in two separate pieces, they are installed and easily removed and stored with minimal effort on the part of the user. Each tonneau cover is made of quality fiberglass materials and requires no modifications for installation onto the car. You can order the standard style covers with ABS style inlays in the blisters or the more desirable covers that include Carbon Fiber blisters. Each set includes installation hardware and painting instructions.

Note: Shipped truck freight.

**1967-89 Standard Hood Insulation**

Reproduction hood insulation for 1967-69 Firebird models with a standard hood. Molded pads are recreated with painstaking detail from factory original pads to include even the smallest details, while replacement pads offer a smooth, clean appearance and big savings. Each hood insulation is manufactured in a heat resistant material which will help to extend the life span of the paint on your hood and helps the heat dissipation of your engine compartment.

**1970-79 Trans Am/Shaker Insulation**

Reproduction of the original hood insulation for use on 1970-79 Firebird Trans Am with shaker hood. Each hood insulation is manufactured in a heat resistant material which will help to extend the life span of the paint on your hood and helps the heat dissipation of your engine compartment.

**1970-81 Hood Insulation**

Reproduction of the original hood insulation for use with 1970-81 standard and Turbo Firebird models. Each hood insulation is manufactured in a heat resistant material which will help to extend the life span of the paint on your hood and helps the heat dissipation of your engine compartment.

**1977-81 Rubber Hood Insulation**

Classic Industries® offers these original hood insulation pads. Hood pads reduce engine noise and act as insulation under the hood. It is necessary to cut the insulation to the required dimensions of the hood. Will install on all hoods from 1967-81. Some trimming required.

**Jute Padding Insulation**

This insulation is just what you need to completely insulate the interior of your vehicle against cold or heat. Developed from 99.5% pure industrial grade aluminum, the insulation gives 97% reflectivity against heat radiation. Jute padding will insulate your interior from noise while helping to maintain an even temperature. For use on firewalls, floor pans, trunks, doors, and roof panels or other areas of the vehicle. Includes one 42” x 6’ foot sheet. CMD1003 all vehicles. 29.99 ea

**1982-92 Hood Insulation**

Reproduction hood insulation for use with 1982-92 Firebird and 1982-93 Trans Am models. This hood insulation is manufactured in a heat resistant material which will help to extend the life span of the paint on your hood and helps the heat dissipation of your engine compartment.

**1982-92 Formula Hood Insulation**

Reproduction hood insulation for 1987-92 Formula (W66) models. Each hood insulation is manufactured in a heat resistant material which will help to extend the life span of the paint on your hood and helps the heat dissipation of your engine compartment.

**1987-92 Hood Insulation Fastener Set**

This is an excellent quality reproduction of the original hood insulation fasteners. Produced with original materials and cosmetically correct. If you seek originality, or are restoring a “show car” then these are the clips you need! Includes a complete set of 20 fasteners for easy installation.

**1987-92 Hood Insulation Fastener Kit**

These hood fasteners were designed to replace the originals. They are not the same configuration as original, however they are inexpensive and will work the same way. See our original reproduction kit (K531) for cosmetically correct fasteners. Each kit includes a complete set of 20 fasteners.

**1987-92 Hood Insulation Retainer**

Reproduction hood insulation retainers are just what your Firebird needs! Keep your original hood insulation where it belongs...attached to the hood. These retainers are service replacements for most models. They may differ cosmetically from the original retainers but will fit and function properly. Use as required.

**Body Alignment Shims**

When replacing sheet metal one of the most essential items are shims. These reproduction shims are available in a variety of sizes. Shims are important when it comes to aligning front end sheet metal. We offer various thicknesses for most alignment situations. Please check your originals to be sure your ordering the correct shims necessary for your replacement.

1969 Firebird 400 Ram Air Flapper Door
Reproduction of the Ram Air flapper door assembly for use on 1969 models with a 400 Ram Air hood. This assembly is functional and will allow air to pass through your hood. The 400 Ram Air flapper door assembly operates with cables.

Note: Cables and connectors sold separately.

1967-79 Hood Hinges
Replace your original old bent hood hinges with these reproduction or original GM hinges. These hinges are for 1967-69 Firebird models. Each hood hinge is manufactured to OEM specs. New hinge kits include all necessary hardware and prevent paint damage on your hood and fenders, bent hinges should be replaced.

1967-81 Billet Hood Hinges
These billet hood hinges are CNC-machined from high quality 6061-T6 billet aluminum, offering a stunning alternative to the original stamped steel hinges and springs. Nitrogen-filled stainless steel gas struts and sealed bearings provide outstanding stability and flawless operation that is simply not possible with stock hinges. Each pair includes gas struts and stainless steel mounting hardware. Made in the USA.

1967-81 Firebird Hood Hinges
Replace your original bent hood hinges with these superb quality OER® reproduction hood hinges for 1970-81 Firebird models. Original hood hinges can bend or become damaged. To maintain the structural integrity of the hood, they should be replaced. These OER® hood hinges will work properly and offer years of dependable service.

1970-81 Power Reverse Opening Hood Set
This power reverse-opening hood set provides the latest in technology combined with stunning styling for a truly unique ride! The handful of traditional reverse-opening hood conversions are manually operated and often require major front panel clearance. This trick set utilizes power actuators and machined Delrin axial guideways at the back of the hood with a patent pending cam lever design to move the hood out of the way of the header panel. Smooth operation is guaranteed with gas shock stabilizers. Set includes 200 lb. actuators, plug-and-play wiring harness, direct bolt-in bracket set, 4-channel keyless entry system, heavy duty gas struts, manual emergency entry cable and mounting brackets.

1967-81 Firebird Billet Hood Hinges
No modifications needed for installation - bolts right in. Billet aluminum hinges with gas struts are made the finest quality 6061-T6 aluminum and use weatherproof bearings and stainless steel hardware to ensure proper operation in any climate, engineered for smooth, effortless operation. Includes black carbon steel struts and all necessary mounting hardware.

Note: No further discounts apply.

Billet Aluminum Hood Pin Sets

You’ve gone to great lengths to source the highest quality and best looking parts for your Camaro, so why settle for cheap, imported hood pins to finish off such a highly-visible part of your car? These US-made, 6061 T6 aluminum hood pin and scuff plate sets will help your car stand out in a crowd and complement any style hood. The billet scuff plates are available in your choice of machined, polished, or powder-coated black finish. All hood pin sets include 6” aluminum pins and stainless steel hardware (black sets also include black oxide screws), so you’ll never have to worry about rust. High quality PVC-coated stainless steel lanyards sold separately.

Adjustable Hood Props

Constructed of high quality aluminum and stainless steel, these adjustable hood props offer great looks as well as functionality on your ride. When the hood is raised, the hood prop will automatically lock itself into position. A quick release allows the hood to be opened to its max for easy engine access. There are two versions of this hood prop, a three position and a six position. This will allow the hood to be set at various levels without unsightly objects holding it up. Each level of the six-position prop increases the opening of the hood by approximately 6”. Each level of the three-level prop increases the opening of the hood by approximately 12”. They also work great for cooling your engine in the staging lanes.

1969 Front Fenders

Reproduction front fenders are finished in an EDP coating and are ready to prep and paint to your desired color. These reproduction 1969 Firebird fenders include the correct side marker lamp cutout area, and recessed areas for installation of the fender ornaments. Reproduction 1969 fenders have been manufactured to exact specifications and maintain a fit which rivals that of the original.

Important: Holes are provided in the lower rear section for the WIDE lower moldings. If you are using the NARROW lower moldings, these holes must be filled and new holes drilled for the narrow moldings.

Note: Shipped truck freight.

1974-81 Front Fenders

Our reproduction front fenders are patterned from the 1977-81 style fenders that feature a "hump-style" factory inner fender flange. They are designed as a direct-fit replacement for 1977-81 models with no modifications necessary other than standard bodywork and finish preparation. With minor modifications, these fenders may also fit 1970-76 models with the "flat-style" inner mounting flange. External appearance is the same for 1970-76, but the inner mounting flange under the hood is cosmetically different than the original. Additionally, on 1976 models, the lower brackets for mounting the front valance will need to be retained from original fenders and welded to the reproduction fender in the correct location.

Important: We recommend professional installation when converting these fenders for use on 1970-76 models.

Note: Shipped truck freight.

Original GM Tooling!
Front Fender Components

1967-69 Fender To Radiator Screws
Reproduction fender to radiator support screws for 1967-69 Firebird models. Manufactured with the correct phillips head style and sold as a set of four pieces.

1969 Trans Am Fender Side Scoops
Reproduction of the fender side scoops for use on 1969 Trans Am models. These scoops have the correct ridge outer scoop lip and stud pedestals just like the original.

1969 Side Fender Ornaments
We offer this beautiful high quality reproduction of the original side fender ornaments for use on 1969 Firebirds. Each chrome ornament is reproduced to exact factory specifications for easy installation. You can purchase individual ornaments or a complete set.

1970-81 Carbon Fiber Fender Vents

1973-76 Trans Am Fender Brace
Reproduction of the original fender brace for use on all 1973-76 Trans Am and Firebird models. This item runs from the radiator support to the fender. Approx. 29” long and 2.5” wide.

1970-81 Fender to Side Cowl Seal
Reproduction fender to side cowl seal for 1970-81 Firebird models. This masticated rubber seal is installed vertically between the rear side of the fender and the side cowl panel. Includes mounting hardware.

1970-81 Fender Skirt Brace
Correct reproduction skirt braces that bolt between the rear inner side fender and the firewall brace. Also bolts to the dash panel bracket on the firewall.

1993-02 Front Fender Skirts
Plastic replacement front fender skirts for 1993-02 Firebird models. These fender skirts are produced by General Motors.

1967-81 Fender To Side Cowl Seal
Reproduction of the front fender vents for 1970-81 Trans Am models. Manufactured from fiberglass with the mesh screen as original.

1967-69 Radiator To Fender Support Bars
These highly polished chrome fender to radiator support bars install from the fenders to the radiator support on each side under the hood. We offer a quality reproduction in the correct black finish for an original appearance. These bars when installed, will help keep the front sheet metal from flexing during driving conditions.

1967-81 Fender Skirt Splash Aprons
These splash aprons install on the fender skirt and keep road dirt, water and other elements from entering the engine compartment. Each set will install on both drivers and passengers side.
Body Components

Body Tools

Pull Rod Set
If you don’t have to replace expensive sheet metal, why do it? Repair your damaged metal with this easy to use set. This set includes 4 pull rods with formed shank, 2 pick pulls with straight shank, straight edge and HS split point drill bit.
$20000

Pull Rod Set

Body Tools

Pull Rod Set

Body Tools

Body Dent Remover
Pulls dented sheet metal back into place. Drill a hole in the deepest part of the dent and insert hook or self-threading screw tips. Tap lightly with the 2-1/2 lb. slide hammer to remove dent. 13” long shaft permits high pulling force. See special tips X2762 and X2763.
Slide hammer has 1/2”-13 UNC thread. High pulling force. See special tips X2762 and X2763.

Deluxe 6" Dent Puller
Easy pop dents, doors and fenders into place. Suction disc is 6” in diameter with steel handle and steel support plates for strong pull. Works on nearly every dent where the sheet metal has not been creased.
X2761

Multi Wedge Prying & Scraping Tools
Multi Wedge is an amazing automotive restoration tool that will replace screwdrivers, pry bars and all other metal tools that can cause damage and marring to delicate surfaces! The soft, orange wedge set and the jumbo wedge are made from a high tech, specially blended polycarbonate that is incredibly ductile so they won’t break or snap. The hard, black wedge set is made from a high tech, specially blended polycarbonate for the heavy duty jobs like oil pan covers, timing covers or valve covers. Each 3 piece set includes one 4” curved end, one 4” straight blade and one 3” straight blade. Buy both sets and save! The jumbo wedge is 14” in length and 2” wide, making it perfect for the big jobs.
MW01 orange wedges, soft-set of 3........ 12.99 set
MW02 black wedges, hard-set of 3........ 13.99 set
MW03 both wedges, soft & hard (set of 6) 19.99 set
MW04 jumbo wedge .............................. 12.99 ea

Vise Grip Flange Pliers
After cutting out rusted areas on fenders or quarter panels, preparing the panels with an offset flange will produce a clean, flush fit. The wide jaws work into corners and saves time on straightaways. Work on up to 18 gauge sheet metal without removing panels from the car. The added feature of “Vise-Grip” locking pliers allows for better leverage.
X9853

Cleco Sheet Metal Fastener Kit
This Cleco sheet metal fastener kit contains everything you need to secure sheet metal panels during the fit and alignment stage. The pliers can be used with all standard spring fasteners and clamps. The complete kit contains one pair of Cleco pliers, twenty-five 1/8” Kwik-Lok clecos and four side grip fastener clamps. Also available are individual components so you can add to your kit as necessary.
X9858 complete 29 pc kit ...................... 49.99 kit
X9859 individual clecos 1/8” ................. 1.49 ea
X9860 individual clecos 3/16” ............... 1.49 ea
X9862 side grip fastener clamps 1/4” x 1” 4.99 ea
X9863 Cleco pliers ......................... 10.99 ea

Pro Paint Gauge
To test the quality of a paint job the Pro Gauge can’t be beat! Basically, it’s a device which measures paint thickness. Factory paint is usually four to five mils in thickness (a mil is one thousandth of an inch). By using the Pro Gauge you can determine if the car has been repainted. For instance, you can take measurements of about 4.5 mil around the car but the hood may read seven mils on the Pro Gauge. That tells you the hood has been repainted. A frame off restoration should have a paint thickness equivalent to the original finish.
PG2437

Glass Fiber Rust Remover
Before touching up paint, you first must remove all rust, wax, and dirt or the rust will return and the paint won’t adhere. This unique tool will scrub away all dirt, rust and wax. The results are touch up paint adheres, seals and blends smoothly into the rest of the paint.
E3437
### 1967-69 Complete Firebird Coupe and Convertible Unibodies

If your Firebird body is rotted-out and beyond replacing individual panels or if you want to build an entire replica First-Gen, then these unibodies are for you! These are an accurate reproduction of a 1967-69 Firebird unibody assembly manufactured and designed just like the original. As shown here, each assembled unibody includes the firewall, upper dash panel, outer cowl panels, windshield frame and doors mounted. Inside you’ll find a complete floor pan, all floor pan braces, rear seat partition as well as inner and outer rocker panels. Each body also features complete quarter panels, the trunk lid with hinges, and a tail panel. This complete assembly is welded and EDP coated.

With so many specialty bolt-on applications for these unibodies, it’s easier than ever to assemble a brand new Firebird with reproduction and aftermarket accessories and most parts needed to build a Firebird are available through Classic Industries®!

**Officially licensed by General Motors**

**Important:** Each unibody is crated for protection when being shipped. A 495.00 crating fee will be added to all unibody orders.

**Note:** Shipped truck freight. No further discounts apply.

Firewall & Dash Panel Parts

1967-69 Firewall Panels

Reproduction firewall assemblies for 1967-69 Firebird models. Features correctly punched and formed holes for the heater/AC box, hoses, throttle and speedo cables for easy installation. With this fine one-piece stamped steel reproduction, you can get your firewall back to new. Available with traditional EDP coating or in a weld-through primer that requires minimal preparation, eliminates corrosion between overlapped panels, and promotes superior weld characteristics.

1970-73 Firewall Patch Panels

Firewall subframe mount reinforcement patch panels for 1970-73 Firebird models. These weld-in panels will replace rusted or damaged subframe mounts.

1967-69 Plastic Wire Gutter

This reproduction wire gutter is used to hold the engine harness as it passes against the firewall area and protects your wiring from falling into the distributor area. Each 1967-68 wire gutter is pre-cut to the original length (13”) assuring originality. 1969 Firebird models used a shorter 5-1/2” wire gutter which is also available. Also includes pre-punched mounting holes assuring easy installation. This extremely durable item replaces your original painted over, heat warped, or missing wire gutter.

1968 Upper Dash Instrument Panel

Correct reproduction of the original inner metal dash panel assembly. The panel also includes the speaker hole cutout area. This panel extends from the inner windshield area to the instrument panel assembly where the dash pad mounts. Welding is required in the installation of this product. To achieve a correct and secure fit, we recommend this panel be professionally installed by a certified welder.

1967 & 1969 Dash Panel Face

1967 Upper Dash Instrument Panel

This all steel dash for 1967 Firebird models is a correct reproduction of the original inner metal dash panel assembly, complete with the speaker hole cut-out area and will replace your original exactly. Exact factory specifications are used to assure a perfect fit in this critical area. This panel extends from the inner windshield area to the instrument panel assembly where the dash pad mounts to. Welding is required to install this product. To achieve a correct and secure fit, we recommend that this panel be professionally installed by a certified welder.

Note: *Without air box cutout. Shipped truck freight.
Roof Panels

1967-69 Coupe Inner Roof Panel Braces
Reproduction inner roof panel braces for 1967-69 Firebird coupe models. Manufactured to original specifications, these braces are available with an EDP coating or a weld-through primer that requires minimal preparation, eliminates corrosion between overlapped panels, and promotes superior weld characteristics.

Note: Shipped double oversize.

1967-69 Custom Deep Tub Floor Components

Adding mini tubs to a vehicle that needs a complete floor pan has never been this easy! Add up to 3 inches of clearance per side with our custom deep tub floor components for 1967-69 models. Manufactured to look like the original floor pans, and frame rail assemblies while providing the added clearance needed for wider tires. The floors feature correct gauge steel, factory style contours, and are properly notched and flanged for easy installation. All parts are Weld-Thru coated for rust prevention, with exception of the mini tubs which are also available in black EDP coating.

**Important:** The upper shock mount will need to be relocated in order accommodate the rear suspension set up.

**Note:** Shipped truck freight. **Shipped double oversize.

Floor Pan Components

1967-69 Full Length Floor Pans
with Toe Board and Under Rear Seat Pan

Full length partial floor pans for 1967-69 Firebird models. Features the under rear seat pans and toe boards as one complete floor pan for each side of the interior floor. Each panel features the correct drain hole area as a solid section built right into the panel. You may cut this section out when installing to put the original drain plug back in if desired. The seat track mounting area is not included and must be removed from existing panel and reinstalled on the reproduction panel.

Note: Shipped double oversize.

Rear Floor Pans

1967-69 Complete Floor Pans

Just the item many early second generation Firebird owners will need to get their 1970-73 Firebird's floor back into shape. Don't let anything you're hauling around fall through those holes in your Firebird's floor, replace it today with this quality reproduction. These complete floor pans are correct reproductions for 1970-73 models and include the transmission hump area and foot well sections. Other replacements are designed to fit all 1970-81 models and incorporate a hump in the floor for a catalytic converter which 1970-73 models don't require. Made in the U.S.A.

Note: Shipped truck freight.

1967-69 to 1981 Frame Rail Rear Sections
Reproductions of the original type unibody part where the rear leaf spring attaches. These extensions can be easily overlooked when restoring your suspension. Classic Industries® recommends replacement for added stability if your originals are rusted or in need of replacement. These rails are manufactured in the original gauge steel. This extends from the very back of the vehicle, forward under the trunk area of the car. Approximately 35" long.

Convertible Tops

1967-69 Convertible Top Kits

The convertible tops are manufactured using heavy weight sateen backed vinyl materials and original manufacturing techniques assuring the best quality tops on the market! Original seams are highly improved utilizing dacron thread and heat sealed lap seam stitching offering an original appearance while maintaining OEM quality. Classic Industries® convertible tops are guaranteed against peeling, leaking, separating or shrinking for three full years from date of purchase. Convertible tops are exact in dimensions to the original. We recommend professional installation due to variations in the convertible top frame assembly. The original convertible tops included a plastic rear window. We offer a folding glass rear window which, although is not original, will eliminate the need to replace your rear plastic window frequently. The glass windows must be sewn into the top when installed. The glass window will be approximately three inches shorter vertically. Available in all original colors. 36 month warranty.

Important: The glass rear window must be installed by a professional trim shop for best results. The glass is surrounded by matching sateen backed material.

Note: Shipped oversize. No further discounts apply.

Replacement for your original using a folding glass rear window. Convertible tops are designed for use with glass rear window. Includes convertible top, rear folding glass window, outer rear bow binding strip, bow binding strip retaining clips, retaining clip screws, and installation instructions.

Important: The glass rear window must be installed by a professional trim shop for best results. The glass is surrounded by matching sateen backed material. Original 1967-69 convertible tops included a plastic rear window, not a glass rear window.

Note: Shipped oversize. 36 month warranty.

1987-02 Firebird Convertible Top Kits

Reproduction factory convertible tops are available for your 3rd and 4th generation convertible Firebird. The reproduction convertible tops are manufactured to the exact dimensions of the original and include the same quality materials. The quality is superb in every detail and the fit is exact. Maintain originality and get the quality you expect.

Important: Carefully check the dimensions listed below before ordering. Classic Industries® is not responsible for damages due to incorrect applications. The 1987-92 models included three different sizes as indicated below.

Note: Width is measured from top edge of rear window. Shipped oversize.

www.classicindustries.com
1967-69 Power Convertible Top Frame
Replace your broken, bent, rusty or missing 1967-69 convertible top frame with this quality reproduction of the original power top frame assembly. This EDP coated steel frame includes fully reinforced hinge mechanisms, header bow, intermediate bows and rear bow to replace the entire frame. Complete latch assemblies are also included. Not for use on vehicles with manual tops.

1967-69 Convertible Top Bow & Latch Set
This quality reproduction set includes front, center and rear convertible top bows and complete latch assemblies for 1967-69 Firebird models. The bows are stamped in high grade steel and EDP coated. The latches are complete, assembled and ready to install. Renew your 1st Generation F-body convertible top frame with this 5 piece set.

1967-69 Firebird Convertible Header Bow
Reproduction of the convertible top header bow for 1967-69 models. The header bow installs in the front section of the convertible top frame.

1967-92 Convertible Rear Bow Seal
Reproduction of the rear bow seal for 1987-92 convertible models. This seal is located at the bottom of the convertible top where it meets the body.

1987-92 Convertible Weatherstrips
After many years of use your original weatherstrip can deteriorate or simply rip in the most crucial areas. When this happens, small leaks will begin to enter the interior compartment or trunk causing expensive damage. These convertible weatherstrips will stop that from happening. The basic weatherstrip set includes the door frame, front header, rear bow seal, roof rail and trunk seals. Convertible header seal available separately.

1987-92 Convertible Roof Rail Weatherstrip
Replace your old worn out convertible roof rail weatherstrip with OER® flawless compression molded reproduction. Each set includes the complete roof line weatherstrip for each side and the front windshield header weatherstrip. Each side rail weatherstrip includes pre-cut opening tabs for easy installation instead of small screw holes which are much more difficult to align. The front header weatherstrip includes the correct style insert clips attached to the weatherstrip for easy installation. Eliminate drafts and protect your interior from all weather conditions. Manufactured by OER®.

1987-92 Convertible Top Seals
Reproduction of the convertible top seals for 1987-92 convertible models. These seals are located on the side of the convertible top. This is a 4 piece set.

1990-92 Firebird Top Bow Trim Panel
Reproduction of the original top header bow trim panel for use with all convertible 1990-92 Firebird models. A fine reproduction which will replace the original missing or damaged item.

1987-92 Convertible Inner Header Molding
Reproduction inner header molding for convertible models. This is the trim piece that attaches to the top portion of the windshield on the inside and has provisions for the sun visors to mount. Available in black only, paint to match.

1994-02 GM header seal

1967-69 Convertible Roof Rail Weatherstrip
Replace your broken, bent, rusty or missing 1967-69 convertible top frame with this quality reproduction of the original power top frame assembly. This EDP coated steel frame includes fully reinforced hinge mechanisms, header bow, intermediate bows and rear bow to replace the entire frame. Complete latch assemblies are also included. Not for use on vehicles with manual tops.

1987-92 Convertible Weatherstrips
After many years of use your original weatherstrip can deteriorate or simply rip in the most crucial areas. When this happens, small leaks will begin to enter the interior compartment or trunk causing expensive damage. These convertible weatherstrips will stop that from happening. The basic weatherstrip set includes the door frame, front header, rear bow seal, roof rail and trunk seals. Convertible header seal available separately.

1987-92 Convertible Top Seals
Reproduction of the convertible top seals for 1987-92 convertible models. These seals are located on the side of the convertible top. This is a 4 piece set.

1990-92 Firebird Top Bow Trim Panel
Reproduction of the original top header bow trim panel for use with all convertible 1990-92 Firebird models. A fine reproduction which will replace the original missing or damaged item.
1978-81 Interior T-Top Moldings
Reproduction of the original T-Top moldings for use on the 1978-81 Firebird models with Fisher T-Tops. Replace your missing or damaged T-Top moldings with this quality reproduction set. Manufactured like the originals down to the correct grain. Paint to match.

1967-69 Convertible Top Parts

1967-69 Convertible Top Motor/Pump
OE style replacement motor and pump assembly for 1967-69 convertibles. Features original style and locations for electric and fluid connections.
HK233 1967-69................................. 279.99 ea

1967-69 Convertible Top Hydraulic Hose
Replacement hose assemblies for 1967-69 models complete with all the fittings attached. Hose assemblies run from the motor/pump to the lift cylinders and back. One set required for both cylinders.
HK234 1967-69 includes 2 hoses ...... 99.99 set

1967-69 Convertible Top Motor Grommets
These rubber grommets install on the pump assembly and secure it to the vehicle while creating a damper for noise and vibration while the pump is in operation. Manufactured from high quality NBR material which is resistant to oils and fuels. Sold individually. Use as required per application.
3698109 1967-69 ............................. 1.69 ea

1967-69 Convertible Top Motor/Pump Cover
Reproduction convertible top motor cover for 1967-69 Firebird. Replace a missing or damaged original to hide the pump for a cleaner look.
F271 1967-69 ................................. 5.99 ea

1967-69 Convertible Top Actuator Cylinders
We offer these high quality replacements for your original cylinders. After years of use the original cylinders will wear out and leak. Replace them with these new not rebuilt replacements. Manufactured out of aluminum, the appearance is slightly different from the original, but they fit and function as original. Two cylinders are required per vehicle.
HK235 1967-69 ................................. 114.99 ea

1967-69 Convertible Top Hose Clip
Reproduction hose retainer clip for 1967-69 convertible models. This retains the top hoses to the body. It keeps the hoses out of the way and allows the hoses to slide while the top cylinders are moving, preventing the hoses from pinching or interfering with the cylinders.
14914 1967-69 2 required .......... 9.99 ea

CA48277 1973-79 under dash .......... 31.99 ea

Reproduction of the original convertible pillar support brackets for use on 1967-69 models. This bracket mounts between the lock pillar brace and convertible top mounting support panel.
B1705 1967-69 ......................... 88.99 pr
1967-99 Convertible Well Liners

Reproduction of the original well liner covering the section between the rear seat and the trunk area. Each liner is manufactured with the same durable material that the factory used. Installs in the well area where convertible top folds down. After years of use your original well liner is usually deteriorated and worn out. You can add new life to this rear well area by simply replacing the liner.

Note: The sateen side faces away from the rear window when installed.

**1967-61 Vinyl Tops**

Classic Industries® quality reproduction vinyl tops are produced for each year listed below. Manufactured using Levant grain vinyls offering the ultimate in originality and quality. The seams are sewn with dacron bonded thread then dielectrically heat sealed which is correct in appearance and quality. Replacing your original vinyl top will help bring your Firebird back to showroom condition. Classic Industries® recommends professional installation in order to maintain the highest quality replacement.

**Important:** Each vinyl top is pre-cut for the rear window and pillar post areas. All models used moldings to finish the lower rear edge of the vinyl top. All models will need to be cut and trimmed to fit the specific vinyl top moldings for each year. Be sure to check the design and placement of the moldings before trimming and gluing the top to ensure accuracy. Requires minor cutting and trimming.

**1967-81 Vinyl Top Molding Set**

Vinyl top moldings for 1967-68 Firebird models were once one of the hardest parts to locate. OER® introduced a new reproduction of this rare item to make replacement easy. Each molding is an exact duplicate of the original. Once installed, they will bring back the original appearance and a factory fresh look. Each stainless steel molding is stamped to perfection and features a high polished finish. For use on 1967-88 Firebird models equipped with a factory installed vinyl top. Set includes both RH and LH moldings and installation clips. Just one more reason why Classic Industries® is the number #1 restoration parts supplier!

Save Your Door Hinges with 1982-02 F-Body Door Hinge Repair Sets

Prior to the development of these sets, the only way to repair a worn-out upper door hinge on 1982-92 F-bodies, as outlined in the GM service manual, is quite a project! The factory hinge is actually welded to the door, so it must be cut off, and a replacement hinge assembly is attached with bolts, which requires the ever-aggravating process of aligning the door for a perfect fit. With this re-engineered, and patented design repair set it is no longer necessary to cut the hinge from the door, and replace the entire upper hinge assembly to restore your doors to fit as they did from the factory. Our set contains all required parts for repair of the upper door hinge to regain the original structural integrity. The advantage to our set over any other available solution, is that you do not have to remove the old hinges, or adjust door alignment. All you need do is remove the old worn pins and bushings and install our set - probably no more than a two hour job. Available with or without “greaseable” upper pins and bushings, 3rd generation sets also include a lower hinge pin and bushings. 4th generation sets include 4 greaseable pins and bushings for upper and lower hinges. Removal of the hinges from the door and body is required to install this set, but, cutting or welding is not necessary. Be sure to mark the hinge locations on the door and body for easy realignment. Instructions for replacement are included with each set. One repair set per door.

1967-69 Outer Door Handle Gasket Set
This set includes the correct die-cut gaskets where the outer door handle meets the body. There are gaskets provided for both the LH and RH outer door handles.

1970-81 Door Push Button Lock Knob Spring
This spring is commonly broken after years of use. When the spring is broken it will become difficult to un-lock and open your door car. Simple replacement will eliminate the chance of costly repairs.

1967-69 Outer Door Handle Replacement
Replace your original pitted or worn-out outer door handles with Classic Industries® complete set which includes all the necessary components to entirely replace your outer door handles, push buttons, door handle gaskets and O-rings.

1982-02 Outer Door Handle Bumpers
Replacement rubber outer door handle bumpers for various GM vehicles including 1982-02 Firebird models. Sold individually, 2 required per door handle.

1970-81 Door Handle Spring
This set includes the LH and RH door handle push button assemblies. These high polished chrome buttons include the chromed thumb knob, attachment rods, tension springs, O-ring gaskets and button retainers for easier installation.

1967-69 Billet Outer Door Handles
Enhance the exterior appearance of your Firebird and give your rebuild that extra attention to detail with a set of billet door handles. Machined from T-6061 billet aluminum and these exterior door handles come with all required hardware and bushings for a complete installation. Available in a variety of finishes.

1970-81 Outer Door Handle Gasket
Replacement door handle gasket for 1970-81 models. Designed to install on the back of the door handle and acts as protection between the handle and the paint, as original. Fits LH and RH, 2 required.

1967-81 Chrome Door Handles
Each handle is chrome plated as original and will fit your 1982-92 Firebird exactly! It doesn’t take long before your original handles start looking worn out. Keep your late model Firebird looking good with these new replacement outer door handles.

1970-81 Billet Outer Door Handles
Enhance the exterior appearance of your Firebird and give your rebuild that extra attention to detail with a set of billet door handles. Machined from T-6061 billet aluminum and these exterior door handles come with all required hardware and bushings for a complete installation. Available in a variety of finishes.

1982-92 Outer Door Handle Replacement
Original GM or quality replacements will install in your 1982-92 Firebird exactly! It doesn’t take long before your original handles start looking worn out. Keep your late model Firebird looking good with these new replacement outer door handles.

1970-81 Door Push Button Lock Knob Spring
This spring is commonly broken after years of use. When the spring is broken it will become difficult to un-lock and open your car door. Simple replacement will eliminate the chance of costly repairs.

1967-69 Door Handle Push Button O-Ring
This O-ring is one of the most overlooked replacement parts on any car. On 1967-69 Firebird models this O-ring inserts onto the door handle push button and eliminates rattling and wear between the handle and the push button.

1967-69 Outer Door Handle Replacement
Replace your original pitted or worn-out outer door handles with Classic Industries® complete set which includes all the necessary components to entirely replace your outer door handles, push buttons, door handle gaskets and O-rings.

1967-69 Billet Outer Door Handles

Outer Door Mirrors

1970-81 Bullet Outer Door Mirrors
OER® reproduction mirrors used on 1970-81 Firebird models. These mirrors were optional from 1970-75 and standard on 1976-81 models. The drivers side mirror is remote and includes the cable assembly and adjustment knob. The interior door panel bezel is sold separately. The RH mirror is not remote and requires hand adjustment. Each mirror is ready to prep and paint to desired color. Bracket, gasket, and mounting screws are available separately.

Note: The RH bullet mirror is not imprinted with the words “Objects may be closer than they appear”. This verbiage was imprinted on replacement GM mirrors appearing late in the decade.

9683156 1970-81 RH .................. 23.99 ea

1967-81 Carbon Fiber Bullet Door Mirrors
Lighten the load and put the finishing touch on your pro-touring Firebird build. These mirrors are manufactured using real “wet” carbon fiber, not a decal on fiberglass like some imitations. These lightweight carbon fiber versions of the bullet style side mirrors mount using your OEM mounting hardware, brackets and mirror glass (all not included and sold separately) for a complete installation. Sold in pairs. Does not include mirror glass.

Note: Not cosmetically correct for 1967-69 models but will fit and install with light modification.

Important Information Before Attempting To Install Sheet Metal!

**Regarding Minor Imperfections in Panels:**
The sheet metal you receive may have scratches, dings, small dents and other minor imperfections which are considered normal sheet metal characteristics due to the nature of the product. These minor imperfections will be easily corrected during the filling, priming and sanding phase of your sheet metal installation. Classic Industries® does not consider dings, scratches, minor dents or other imperfections on the sheet metal to be defects in the panel nor are they considered damaged. All sheet metal panels will require some sort of preparation and manipulation during installation. Every panel that we sell is inspected and then carefully packaged to protect against damage that may occur during transit.

**Test Fit All Panels Prior to Paint and Installation:**
Classic Industries® recommends test fitting all sheet metal panels prior to final paint and installation. Minor modifications including elongating mounting holes, adding additional shims, etc. are normal and may be necessary when installing sheet metal. It is important to note that hard driving conditions, like racing, can twist bodies and frames out of original tolerances. Poor body work from previous collisions can cause problems with the body structure that the panels are attached to. Some vehicles were manufactured with a unitized body (no frame) thus causing even the most minor accident to twist the body creating a situation that would cause sheet metal panel mis-alignments. Take into consideration that tolerances on classic vehicles are not nearly as exact as they are on modern vehicles. This is primarily due to the hand fitting of panels at the factory on most antique and classic cars as opposed to the robotics used in today’s modern factories. All of these factors will affect the way your new reproduction sheet metal will install and fit on the car. There is really no such thing as a direct fit body panel when it comes to older vehicles.

**Returns and Defects:**
Prior to returning any defective body panel or sheet metal item to Classic Industries®, please contact our customer service department. Classic Industries® will not replace a panel, nor will we be responsible for freight on returns should it be deemed that the panel is not defective. See policies for more information.

**For Best Results, Hire a Professional to Install the Panels:**
Classic Industries® recommends that you hire a professional paint and body technician that has the skills, knowledge and experience necessary to install the new panels on your vehicle. A professional body technician will be able to prepare the panels for installation and repair any imperfections.

**When Welding Sheet Metal Products . . .**
Save time when replacing sheet metal by using Classic Industries new, innovative "Weld-Thru" primed sheet metal products. Our all new coating process is designed to eliminate the unnecessary process of grinding or sanding the EDP coating off to ensure a solid and rust free weld. This "Weld-Thru" primer requires minimal preparation and eliminates corrosion problems between overlapped panels and layered spot welds. It also minimizes heat zone problems, reduces panel distortion, and allows better penetration into the dense replacement steel to compensate for the older metal’s impurities. Look for the "Weld-Thru" logo when purchasing sheet metal products to save time during installation of weld-on sheet metal repair panels.

**Some Guidelines on EDP Coating**
Many sheet metal products are delivered with a black electrophoretically deposited coating (EDP, or E-coat) for superior long-term corrosion protection, while others use a similar lacquer-based coating designed to provide protection for storage and shipping. Before panel installation, Classic Industries recommends applying lacquer thinner with a shop towel to determine the type of coating. If the coating is removed by lacquer thinner, then it should be completely stripped from the product before any primer or paint is applied. If the lacquer thinner does not remove the EDP coating, it can simply be prepped, primed and painted without stripping.
1967 Complete Quarter Panels

Not just a skin, a complete reproduction quarter panel including the sail panel! That’s right, a complete quarter panel assembly ready to install! When General Motors discontinued this popular item a few years back, you could either pay the high price for an original NOS panel or resort to the overseas quarter skins which were less expensive but more difficult to install. OER® changes all that by manufacturing an authentic complete quarter panel including every component found on the original item. OER® built the tooling, we control the quality.

Note: Shipped truck freight.

1970-92 Reproduction Quarter Panel Skins

Replace your original quarter panels with these reproduction skins. Each skin will install as original panel except for the roof sail panel which is not included with this reproduction panel. This is an excellent replacement if you have rust around the wheel well areas. These skins offer a good fit and will install with minimal fitting. This is a partial quarter panel skin which extends to the top crease of the original quarter panel. Each panel is manufactured to allow installation of the chrome wheel opening moldings. Will eliminate all rust located around wheel opening. These panels are exceptional for convertible use due to the elimination of the sail panel area. Manufactured with pre-cut holes for side marker lamps. Careful attention is paid to packing and shipping to eliminate damages.

Note: Shipped triple oversize.

1967-81 Mini Tubs
Detroit Speed’s exclusive Mini Tubs inner wheel housings are designed to accommodate wide tire and wheel packages. These are the same mini tubs used in the Mini-Tub set. They are engineered for a perfect fit and retain a stock appearance. Mini tubs are almost three inches wider than stock, stamped from 18 gauge steel and made in the USA. These Mini Tubs will significantly reduce the number of hours required for a mini-tub project. Mini Tubs allow tires as wide as 335mm and wheels as wide as 12”. Also, included is either a DVD or CD containing a full instructional video that demonstrates the mini-tub process from start to finish.

Important: Convertible installation is the same except some convertible hinge must be relocated to the new Deep tubs.

Note: Shipped double oversize.

# Quarter Patch Panels

**1967-68 Quarter Patch Panel Repair Kit**

Restore your old rusted quarter panels with this unique patch panel kit. An inexpensive way to replace rusted wheel openings without the high cost of purchasing new quarter panels. Each side requires three panels and replaces the complete wheel opening section. All panels include the correct lip to install the wheel opening moldings. The panels include an offset flange making installation easy! The front forward panel measures 11-1/2" high, the center measures 11" high x 29" long and the rear panel measures 12" high. **Important:** Lower front panel does not include indented area for trim moldings. **Note:** Shipped oversize. **No further discounts apply.**

**1967-69 Trunk Floor Replacement Kit**

Replacement sheet metal panels should retain the same quality standards as the original factory sheet metal. Classic Industries® offers the finest quality replacement trunk panels for your Firebird. Trunk panels are designed and manufactured using original factory specifications giving the finished product a factory original appearance while maintaining originality. This unique kit includes all the basic sheet metal panels required to make your trunk area look new! The trunk section is often corroded or rusted from salt or other chemicals including leakage into the trunk area from deteriorated weatherstrip. It’s usually too late by the time rust is noticed. This kit is designed to completely replace the most commonly rusted areas. Choose from the standard style kit or the deluxe kit which includes the trunk reinforcements. We also offer the components separately if required. **Important:** This product is not water-resistant and must be used with part #K51497 trunk spatter clear topcoat for a water-resistant finish. **Note:** Aerosol spray cans are available within the intercontinental United States only. Due to current FAA regulations, aerosol spray cannot be shipped air freight.

### Trunk Components

#### 1993-02 Liftgate Side Trim Panel
Original GM trunk liftgate side trim panel designed for use on 1993-02 4th generation Firebird models. 
- G4642 1996-02 LH ......................... 61.99 ea
- G4641 1996-02 RH ......................... 61.99 ea
- G4638 1993-02 retainer - 13 req. ....... 7.99 ea

#### 2000-02 Front Storage Panel
From T-tops to shopping bags, this panel is used to conceal items stored in the trunk of your Firebird from prying eyes. This original GM panel is located in the front of the rear storage compartment and is often damaged or missing after years of use. Choose from the variety of factory colors listed below or paint to match.
- G5427 2000-02 ebony ..................... 140.99 ea

#### 2001-02 Liftgate Trim Panel
Original GM liftgate lower trim panel designed for use on 2001-02 4th generation Firebird models. This panel is installed on the lower section of the rear liftgate trunk panel. Paint to match.
- G5485 2001-02 ebony ..................... 74.99 ea

#### 1982-92 Rear Hatch Panel Trim Screw
Reproduction interior trim fastener for rear hatch cargo panels. This trim screw is manufactured from correct plastic material in the original shape and size to secure the rear hatch interior panels. Available in a variety of colors. Sold individually.
- A8100334 1982-92 black ..................... 2.99 ea
- A8100335 1982-92 camel tan ............... 2.99 ea
- A8100336 1982-92 red ....................... 2.99 ea
- A8100337 1982-92 medium dark gray ....... 2.99 ea

#### 1993-02 Liftgate Trim Panel Retainer
Original GM rear liftgate/trunk lid panel retainer designed to hold the inner trim panel. Requires 13 retainers per vehicle.
- G4638 1993-02 13 required .............. 7.99 ea

#### 1984-90 Rear Storage Well Panel
This rear panel is located behind the front panel on the side of the storage well on 1994-02 Firebird models. Original trim panels often become faded or cracked due to exposure to sunlight and heat. If your color is not listed, you may paint to match.
- G5459 1994-92 LH conv. graphite ...... 61.99 ea
- G5440 1997-99 RH coupe gray .......... 104.99 ea

#### 1982-02 Liftgate/Trunk Strut
If your rear liftgate refuses to hold itself up in the open position, you most likely just need to replace the rear trunk struts. This is not only an easy fix for the do-it-yourselfer, but it’s also very inexpensive.
- G9120 1982-92 LH or RH yellow ...... 147.99 ea
- G51654 1991-92 LH or RH silver rosps. 21.99 ea
- G5477 1993-02 LH coupe w/spoiler ..... 75.99 ea
- G5478 1993-02 LH coupe w/spoiler ..... 60.99 ea
- G5479 1993-02 RH coupe w/spoiler ..... 61.99 ea

#### 1986-91 Rear Hatch Motor Nylon Guides
Replacement slides that guide the rear hatch pull down function. Made from injection molded hardened plastic, these slides are not serviced by GM.
- F3001 1986-91 4 piece set ............... 29.99 set

#### 1995-02 Rear Body Panel Lock Support
Original GM rear body panel to trunk lock support panel. This panel installs on the inside of the trunk area where the trunk lock is installed. Acts as a support between the trunk floor and rear body panel.
- G4694 1995-02 ............................. 82.99 ea

#### 1993-02 Rear Cross Bar Extension
Original GM extension bridges the upper cross bar and rear body panel. Available for 1993-02 models.
- G4699 1993-02 LH .......................... 8.99 ea

#### 1995-02 Liftgate/Trunk Lid Welt
Original GM coupe liftgate finish weld for use on 1995-02 Firebird coupe models. Keep your Firebird free of leaks that cause damage to your trunk area by making sure that the seal is tight.
- G4629 1995-02 ............................. 149.99 ea
1967-69 Rear Spoilers

Adding a spoiler to your Firebird is easy! A rear deck lid spoiler was optional on 1967-69 Camaro models, and can be installed on a Firebird. Each rear spoiler includes studs for mounting the spoiler to the rear deck lid. The original rear deck lid features cutout areas on the underside of the lid for drilling the mounting locations. Manufactured in fiberglass and ready to prep and paint to the desired color.

Note: The deck lid emblems must be removed and holes filled before installing.

1967-69 Rear Spoiler Mounting Hardware

When adding or replacing a rear spoiler, you’ll want to be sure you have the correct installation hardware to mount it. This hardware kit offers everything you’ll need to install an OER® or original GM rear spoiler.

E269A 1967-69 ........................................ 4.99 kit

1967-69 Rear Spoiler Mounting Stud Set

### Spoilers

#### 1970-81 Carbon Fiber 3-Piece Spoiler Center Section
This carbon fiber panel replaces the center of the factory 3-piece spoiler and is designed to be mounted to deck using the stock mounting holes. Featuring a carbon fiber top layer and fiberglass under structure, this spoiler is lighter than the original and will allow you to mask off true carbon fiber rally stripes when used with other carbon body panels. Outer spoiler sections not included, must use OE.

### 1993-02 Sport Back Rear Window
The Sport Back was developed to create a targa-top feeling of the late 60’s and early 70’s Corvettes. These cars gave an open air feeling, while maintaining the structural integrity needed for harder driving conditions. As with those vintage vehicles, the RK Sport Back, gives the Firebird an open-air ride with no loss of valuable rear seating room or trunk space. The Sport Back’s rear window was designed to be easily removed and stored in the built in pocket, all from inside the car. The simplicity of the Sport Back is that there is no drilling, modifying, or cutting of the body for the installation. The Sport Back simply replaces the rear hatch glass. A qualified body and paint facility will be able to provide paint matching and installation. Complete detailed instructions are included.

*Note: Shown on a 4th generation Camaro but fits Firebird models too! Shipped truck freight.*

- Awesome "Custom Firebird" Appearance
- Easily Removed Rear Window
- Easy Installation. No Cutting Required!
- Open Air Ride With Less Turbulence Than A Convertible
- Strong Lightweight Construction
- Shipped Primed and Ready To Paint

#### Body Components

[www.classicindustries.com](http://www.classicindustries.com)
Trunk Mat Kits & Components

Your trunk area should be considered an important aspect of your restoration. Although sometimes neglected, it doesn’t take much to bring it back to showroom condition. It’s a great feeling to know you can open the trunk lid and find everything you need in perfect order while maintaining an original appearance. The trunk dress-up kits can help keep your trunk in the condition you want. The kits are produced with three individual components: the trunk mat, the spare tire cover and the jack storage pack. The trunk mats are manufactured in heavy-weight vinyl material with a soft felt backing. Each trunk mat includes the original-style Houndstooth pattern in your choice of Gray/White or Aqua/Black. The mats are manufactured to fit the trunk pan exactly. Each form-fitted trunk mat is produced from original factory patterns. The spare tire covers are produced in the same Houndstooth material and can be ordered three ways: A 14”/15” spare tire cover, a space saver spare or a fiberboard spare tire cover. The fiberboard cover includes a stiff fiberboard support. The kit also includes a jack storage bag produced in Houndstooth material which is correctly sized to house the jack unit, bracket and wrench. These kits will truly help to organize the trunk area while keeping a clean and neat appearance.

Complete 3-Piece Mat Kit - Gray/White Houndstooth

Restore your trunk area with the finest quality reproduction trunk mat kits available! Our 3-piece mat kit makes it easy to do and saves you money. Each kit includes vinyl trunk mat, jack storage bag and matching spare tire cover of your choice.

1974-81 Trunk Mat Jute Padding

GM installed jute padding under the trunk mats on 1974-81 models. We now offer the correct style, pre-cut jute padding for Firebird models between these years.

F278 1974-81 .............................................. 19.99 ea

1967-69 Trunk Panel Set

This trunk panel set is the perfect way to beautify your trunk area. There’s no need to spend big bucks having it professionally paneled. Panels can be covered with vinyl, cloth or even carpet to achieve whatever custom look you desire.

Note: Shipped double oversize.

CM53140 1967-69 .............................................. 192.99 set

1967-73 Molded Houndstooth Trunk Mats

These authentic reproduction mats are heat molded to fit the trunk pan then die-cut to the exact dimension of the original mat. The correct black/aqua Houndstooth pattern offers a completely original appearance. The early model mats are manufactured for coupe models. The convertible models require minor trimming around the rear convertible weight dampeners. These molded mats were standard on 1967-69 Firebird models with deluxe interiors and an dealer option on standard interior models.

Note: 1972-73 Firebird models originally came with gray & white Houndstooth trunk mats, currently unavailable in OEM style molded trunk mat.

OER® Trunk Refinish Kit

Restore the trunk area of your classic car to a factory original appearance and provide the ultimate protection from the elements. First prime the area to be painted. On bare metal, you should use a self etching primer. Next, spray your base coat. Then spray your spatter coat and let dry thoroughly. Finally, coat the entire surface with our clear topcoat to seal the surface. Buy the kit and save!

Note: Ships ground only. No air shipment.

#### 1967-89 Two Spd Hidden Wiper Conversion
Our wiper system is a modern, high-quality replacement for the old system. It is the only replacement wiper system that is completely hidden, fitting entirely within the airbox in the cowl! This allows you to remove the stock wiper motor. The wiper motor hole in the firewall can be covered up with the cover plate supplied in the set or you can weld in a patch panel to eliminate the hole entirely. Perfect for Pro Street cars or if you just desire a clean looking firewall. For models with concealed wipers.

**Important:** Very minor modification is required to run the wiring through the firewall.

**Standard 2-speed system**

Windshield Wiper Arm Remover
Make replacing or removing the windshield wiper arm easy with the windshield wiper arm removal tool. Will allow you to remove the wiper arm safely without possible damage.

Y65750 ...............................  6.99 ea
### Windshield Wiper Parts

#### 1967-68 Wiper Switch
- OER® reproduction switch for use with all 1967-68 Firebird models.
- 1993395 1967-68.......................... 32.99 ea

#### 1967-88 Windshield Wiper Knob
- Reproduction of the original chrome wiper knob for use with 1967-68 Firebird models. The knob is manufactured to exact specifications ensuring a perfect match with the rest of the dash knobs.
- 1945071 1967-68.......................... 7.99 ea

#### 1967-68 Headlamp & Wiper Bezel Nuts
- These machined nuts hold the headlight and wiper switches in position and retain the dash bezels in place as well. A perfect addition to any 1967-68 Firebird.
- 1945071 1967-68 headlight nut........... 9.99 ea
- 533012 1967-68 wiper switch nut....... 9.99 ea

#### 1970-81 Windshield Wiper Knob
- Reproduction windshield wiper/washer knob for all 1970-81 Firebird models. The knob features the correct chrome and black finish and the word “PUSH” as original.
- K525 1970-81............................... 10.99 ea

#### 1973-83 Wiper Motor Park Switch
- Replacement Delco switch for use on 1973-83 Firebird models with depressed park or “hidden” windshield wiper arms. This switch mounts on the wiper motor.
- G1075 1973-83............................... 26.99 ea

#### 1982-83 Delco Wiper Switch
- This is an original Delco service replacement part. Each switch is new, not refurbished. These are the correct replacement switches for use with all applications listed below.
- With Tilt Wheel
  - G7061 1982-83 pulse wipers......... 128.99 ea
- Without Tilt Wheel
  - G7064 1984-86 2 speed............... 102.99 ea

#### 1984-86 Delco Wiper Switch
- These switches are for 3rd generations Firebird models. We offer a wide selection for use with all available options. The correct replacement switches for use with all applications listed below.
  - With Tilt Wheel
    - G7061 1984-86 pulse wipers........ 130.99 ea
    - G7063 1984-86 tilt wheel........... 175.99 ea
  - Without Tilt Wheel
    - G7064 1984-86 2 speed............. 102.99 ea

#### 1990-92 Delco Wiper Switch
- The correct replacement switch for use with all applications listed below.
- G7065 1990-92 w/cruise control........ 104.99 ea

#### 1993-96 Delco Windshield Wiper Switch
- This original GM switch includes the harness and is ready to plug into your 1993-96 model with cruise control.
- G3870 1993-96 w/cruise control.......... 81.99 ea

#### 1993-02 Delco Windshield Wiper Switch
- Looking for a quality wiper switch for your 1993-02 Firebird? Here it is! This original GM switch includes the harness and is ready to plug and play.
- G3871 1993-02 w/o cruise control...... 121.99 ea

#### 1973-83 Wiper Motor Park Switch
- Replacement Delco switch for use on 1973-83 Firebird models with depressed park or “hidden” windshield wiper arms. This switch mounts on the wiper motor.
- G1075 1973-83............................... 26.99 ea

#### 1982-83 Repro Wiper Switches
- Located in the steering column, the windshield wiper switch is one of the major components needed to keep the windshield wipers functioning properly. This switch is often worn or may become inoperable after extensive use.

### Intermittent Wiper Module
- This Intermittent Wiper Module adds three settings to the factory slow and fast speeds. Uses existing switch and motor for a stock look. Installs behind the dash between the switch and harness. Fits most applications with two-speed and non-hiding wipers.
- RE13009 ........................................ 72.99 ea

### 1993-96 Repro Wiper Switches
- Located in the steering column, the windshield wiper switch is one of the major components needed to keep the windshield wipers functioning properly. This switch is often worn or may become inoperable after extensive use.

#### Note:
- * with intermittent wipers
- ** w/o intermittent wipers

1967-02 Remanufactured Windshield Wiper Motors

Each wiper motor is built using the industry’s most advanced engineering and remanufacturing technology. Our remanufactured wiper motors are the high quality, low cost alternative to brand name motors. Why pay more? Enjoy safety, performance, and reliability at a fraction of the cost of OE. We’ll back that up with a 1 year manufacturer’s limited warranty.

1967 Selecta-Speed Wiper Systems

Bring Your First Generation Firebird into the 21st Century! Specifically designed for your 1967 Firebird, the Selecta-Speed wiper system contains a low profile, seven speed wiper motor (with five different delays, a low and a high speed), rotary switch, billet wiper switch knob, wiper motor adapter plate and wire harness. The CNC aluminum adapter plate mounts the wiper motor to the stock firewall bolt pattern. The low profile wiper motor mounts to the firewall and clears the valve covers and brake booster. Want your headlight switch knob to match your new billet wiper motor? No problem, matching billet headlight knob is also available separately.

Note: There is no provision to operate the windshield washer function.

Rotabroach Cutters

For precision hole making in sheet metal and frame materials up to 1/2” thick, Rotabroach annular cutters make clean, burr-free, round holes with no deforming of stock or damage to the surrounding material. Rotabroach cutters are precision ground and made of M2 H.S.S. with a patented tooth geometry that also prevents chip clogging whether cutting steel, sheet metal or plastics. Unlike hole saws and twist drills that push and tear through materials, these cutters will make hundreds of holes with no deforming of stock, jagged edges or out-of-round holes. Arbors for Rotabroach cutters fit 3/8” and 1/2” hand held drill chucks and use either spring loaded pilots or skip-proof pilots which eliminate pre-drilling operations.

Holcutter

For large hole making in sheet metal and other materials up to 1/8” thick. Holcutters are not hole saws. They are precision ground, heat treated tools that easily cut through the stock rather than ripping, tearing, and pushing thru as do typical hole saws. They can produce holes 3 times faster and cleaner than hole saws in sheet metal and have a dramatically extended tool life. Holcutters produce holes from 11/16” up to 3” diameter in sheet metal, rubber, gasket or fiber materials, and some plastics. Ideal for aftermarket installations, custom fabrication, trailers, or gauge installation, Arbor fits 3/8” drill chucks. Holcutters have a new, patented Quad-Lead Thread System for quick cutter changes.

Note: D.O.C = depth of cut. Arbors and cutters sold separately.

Double-End Spotweld Cutter

Double-end spotweld cutters makes removing body panels fast and easy. Their hollow design cuts around the spotweld so weld hardness does not affect tool sharpness. When one end becomes dull, simply unscrew the cutter and flip it over using the new teeth on the other end. An adjustable depth rod sets the tool so only the outer panel is cut, leaving the underlying panel undamaged.

Blair Cutter Kits

Blaircutters provide fast, accurate holes in materials up to 3/16” thick. Blaircutters are annular cutting tools that cut around the edge of the hole and eject the center as a slug. Because they’re hollow there’s no dead zone as with twist drills. And unlike hole saws, that rip and tear through the material, they quickly give you a quality, virtually burl-free hole. Blaircutters are available in seven sizes for 1/4” and larger drill chucks. Spring loaded pilot “pops” the slug from the cutter.

Note: D.O.C = depth of cut. Arbors and Cutters sold separately.

Premium Spotweld Cutters

These cutters have a heavier wall (.090”) for extreme durability and two step geometry that splits the chips and helps clear them. Premium spotweld cutters have a fast cutting action and last for hundreds of spotwelds. They are for use in 3/8” or larger drill chucks. The spotweld cutters are available individually or in sets containing 3 cutters.
