**Headlamp Components**

**Replacement Sealed Beam Headlamps**
Replacement sealed beam headlamp bulbs for 1955-57 Chevrolet models. All sealed beams are 7" round bulbs and function on 12 volt electrical systems.

- 6014 tungsten.................. 9.99 ea
- H6024 halogen.................. 9.99 ea
- CH6024 halogen with clear lens... 19.99 ea

**1955-57 T-3 Headlamp Bulbs**
Authentic reproduction T-3 headlamp bulbs for 1955-57 Chevrolet models. These reproduction headlamp bulbs are manufactured and produced directly from GM blueprints to replicate the original exactly. Each bulb features the correct markings on the lens.

- T3HBC 1955-57 7".................. 159.99 pr

**1955-57 Halogen Headlamp Set**
Halogen headlamp wiring harness retrofit set for 1955-57 models. This set features two “Bright Driver” headlight reflector bodies and halogen bulbs made complete by the addition of the correct factory connectors and pigtail assembly for easy connection to most 2-7" bulb headlight systems. What makes this even better is that they are a direct replacement for the common glass sealed beam headlight with no additional mounting hardware necessary. Completed assembly is lighter than the stock glass bulb by nearly 1 pound.

- TF900352 1955-56................. 233.99 set
- TF900353 1957..................... 233.99 set

**1955-57 Frenched Headlamp Conversion**
This convenient frenched headlamp conversion set provides the ultimate 1950’s custom look with ease. This unique set is available with your choice of chrome or paintable bare steel trim rings. Buckets are weld-in units and the lamps install from the front. Trim rings are held in place with 3 spring clips for a clean “no hardware” look. Designed to work with standard 7" sealed beams or almost any other custom aftermarket 7" lamp configuration.

- TF900352 1955-57 289.99 set
- T70796 1955-57 chrome trim rings... 384.99 set

**Direct Replacement Halogen Bulbs**

- CH6024 halogen with clear lens... 19.99 ea
- H6024 halogen............... 9.99 ea

**7" Projector Style Headlamps**
Embody the classic look while substantially upgrading the quality of light and eliminate “headlight dazzling” on the roads! Features a Bi-Xenon projector (high and low beams) with adjustable light focus and flat light distribution to prevent blinding of oncoming traffic. Available with chrome or black housing. Bulbs and wiring included.

**Chrome Housing**

- 42mm Projector 152828 with city light............... 269.99 pr
- 64mm Projector 153135 with city light............... 359.99 pr

**Black Housing**

- 42mm Projector 152829 with city light............... 274.99 pr
- 64mm Projector 153136 with city light............... 399.99 pr

**7" Modern Style Flat Lens**

- 1149X Xenon........................ 54.99 ea
- 1149  Halogen........................ 49.99 ea
- 1179X  Xenon........................ 59.99 ea
- 1179  Halogen........................ 49.99 ea

**7" High Power 11 LED Crystal Headlamp**

- 152828 – 42mm projector with city light 153136 – 64mm projector with LED halo

**Halogen/Xenon Headlamps**
These conversion headlamps feature lead crystal lens with “E” mark certified precision optics, steel-stamped reflector and self-sealing rubber boot to protect the optic unit from dust and moisture. They are equipped with halogen H4 60/55W or Xenon hyper white bulbs, which are 50% brighter than standard Halogen bulbs, for superior performance. Your choice of classic looking convex lens or more modern looking flat lens. Applications to fit four headlamp or two headlamp systems.

**7" Classic Convex Lens**

- High/Low Beam for 2 Headlamp System 1179 Halogen......................... 49.99 ea
- 1179X Xenon......................... 59.99 ea

**7" Modern Style Flat Lens**

- High/Low Beam for 2 Headlamp System 1149 Halogen......................... 49.99 ea
- 1149X Xenon......................... 54.99 ea

**Diamond Cut Headlamp Technology**
Replace your standard “yellow light” headlamps with these unique looking halogen diamond cut headlamps for increased visibility, safety and a unique custom look. These headlamps install much like a standard sealed beam unit, but they allow the use of an H4 Halogen bulb in your choice of color and wattage. For your conversion, we recommend using our wiring harness upgrade set sold separately.

- MX09137 7" round.................. 21.99 ea

**64mm Projector**

- High/Low Beam for 2 Headlamp System 1149X Xenon........................ 59.99 ea

TF400543  1955-57 phillips head screws ..............................  2.99 ea
TF400544  1955-57 clutch head screws .................................  4.99 ea
To get maximum power from your headlamps, it is recommended to have the shortest possible distance between the power source and the bulbs. Some factory headlamp wiring is not designed to handle high power Halogen Headlamps, especially when upgrading to a higher wattage. Running the power through the switch is an even worse situation. Resistance in small gauge wire or in the switch will lower the output at the lamp.

Be Safe! Our headlamp harnesses draw power directly from the battery, through a relay, to the headlamps, providing full power to your Halogen sealed beams. They can also be used to relocate headlamps to a remote location (to accommodate a snow plow, for example). They are made with TXL high temp wire, weather resistant 30 amp fuse, and two 40 amp weather resistant relays capable of handling up to 150 watts. #30816 is for use on vehicles with a 2 headlamp system using dual filament sealed beams. #30817 is for use with vehicles with 9005 and 9006 bulb on each side.

30816  for 9004 & 9007 halogen bulbs   222.99   ea
30817  for 9005 & 9006 halogen bulbs   222.99   ea

1955-57 Headlamp Dimmer Switch
Reproduction headlamp dimmer switch for 1955-57 models. This switch mounts to the floor and controls the high and low beam operation for the headlamps. UDS413  1955-56.................................  19.99 ea
DS12  1957.................................  16.99 ea

Headlamp Auto-Off Relay
The Headlamp Auto-Off Relay automatically turns off your headlamps, running lamps, and dash lighting when you turn off the ignition key. No more worrying of a dead battery when forgetting to turn off your headlamps. Fits most applications without cutting the factory harness.
RE14003  .............................................  39.99 ea

Headlamp Components

1955-57 Headlamp Bezels
Reproduction headlamp bezels for all 1955-57 models. Feature correct chrome plating and mount just like the originals. Mounting gaskets are included.

#### H4 Conversion Wire Harness
This wiring harness set upgrades the thin stock headlamp wiring on your vehicle, providing your new H4’s with maximum power and decreasing the chance of overloading (and possibly melting) your stock wiring and headlamp connectors. Power will be drawn directly from your battery, eliminating voltage drops and ensuring headlamp system reliability. Each upgrade set installs easily in 5-10 minutes without headlamp sockets, attach positive connectors to battery terminal and ground wires to the body of your vehicle. Two 30 amp relays provide added protection for your headlamp switch and wiring harness.

1957 License Lens Retainer Set

Reproduction license lens retainer set for 1957 models. Manufactured to factory specifications, every set includes two screws and two retainers.

LED Replacement Back-up Lamp Bulbs

These direct replacement LED bulbs shine up to 3 times brighter than conventional incandescent bulbs, plus they last longer, don’t get hot, and require fewer amps. LEDs flash on almost instantly, in approximately .05 seconds, giving the driver behind you valuable reaction time for added safety. These are available in the common dual contact 1157 tail/stop lamp bulb and the single contact 1156 back-up lamp bulb.

50 Watt Halogen Back-up Bulbs

Simply replace your cars existing back-up light bulbs with the power of halogen. These bright bulbs will help you to see more clearly. Excellent for dark driveways and unlit areas. Replaces 1156 style bulb.
Tail Lamp Components

**“Tattle Tale” Pulsing Brake Lamp Module**
The “Tattle Tale” pulsing brake light system is designed to get attention, an inertia switch (which is adjustable by you, using supplied installation bracket) detects panic stop situations and reroutes the brake signal through an electronic pulsator. Under normal braking situations the brake lights react normally, but when hard braking occurs, the lights pulse rapidly, alerting other drivers of a panic stop. This system is great for 3rd brake lights when brakes are applied. Instructions and wiring included.

**10° Rear Window LED Third Brake Lamp**
If your car is finished and you want to add a bright high mount brake light, here is the answer! The housing on this lamp is curved and designed specifically for 1940-57 GM coupes and sedans. The window LED bonds to the inside of the rear window in an attractive black plastic case, ideal for painting interior color if desired. The small wires can be hidden in the window trim.

Pro Paint Gauge
The Pro Gauge is a device which measures paint thickness. Factory paint is usually four to five mils in thickness. By using the Pro Gauge you can determine if the car has been repainted. For instance, you can take measurements of about 4.5 mil around the car but the hood may read seven mils on the Pro Gauge. That tells you the hood has been repainted.

Eliminator Rust Remover
Before touching up paint, you first must remove all rust, wax and dirt or the rust will return and the paint won’t adhere. This unique tool will scrub away all dirt, rust and wax. The results are touch up paint adheres, seals and blends smoothly into the rest of the paint.

Body Tools

Body Dent Removal Tools
Pulls dented sheet metal back into place with our convenient tools. 13" long shaft with 1/2" - 13 UNC thread screw on our slide hammer permits high pulling force.

Slide Hammer Set
X2290 .......................... 39.99 ea
Replacement Hook and Screw
X2290-70 .......................... 3.99 ea
Replacement Nose Nut
X2290-76 .......................... 7.99 ea

Body Dent Removal Tools

The pull rod set includes: 4 pull rods with formed shank, 2 pick pulls with straight shank, straight edge and HS split point drill bit.

S20000  pull rod set....... 44.99 set

Plugweld Pliers
These plugweld pliers make plug welding fast and easy. Panels won’t separate and copper alloy pad prevents burn through, allows higher welding temperature and better penetration.

S23230  pliers.................. 36.99 ea
S23231  replacement pad 6.99 ea

Vice Grip Flange Pliers
Preparing panels with an offset flange will produce a clean, flush fit. Work on up to 18 gauge sheet metal without removing panels from the car. The added feature of “Vice-Grip” locking pliers allows for better leverage. Available with your choice of 1/2" wide non-slip jaw or wider 1" clamping surface.

S20015  straight.............. 39.99 ea
S20016  90 degree angle .. 32.99 ea
S20017  air hammer......... 49.99 ea

Seam Buster HD Chisels
Easily separate spot welded or bonded panels. Save up to 15 minutes per panel replacement. Great for quarter panels, rocker panels and other pinch welded areas. Sharpened on two edges, the sharp end allows for penetration between panels and the side edge allows for side impact to drive the panels apart without damage. Made of super tough alloy steel. Cushioned handle absorbs shock.

S20015  straight.............. 49.99 ea
S20016  90 degree angle .. 32.99 ea
S20017  air hammer......... 49.99 ea

Double-End Spotweld Cutter
Double-end spotweld cutters makes removing body panels fast and easy. Their hollow design cuts around the spotweld so weld hardness does not affect tool sharpness. When one end becomes dull, simply unscrew the cutter and flip it over using the new teeth on the other end. An adjustable depth rod sets the tool so only the outer panel is cut, leaving the underlying panel undamaged.

Multi Wedge Prying And Scraping Tools
Multi Wedge is an amazing automotive restoration tool that will replace screwdrivers, pry bars and all metal tools that can cause damage and marring to delicate surfaces! The soft, orange wedge set and the jumbo wedge are made from a high tech, specially blended polyethylene that is incredibly ductile so they won’t break or snap. The hard, black wedge set is made from a high tech, specially blended polycarbonate for the heavy duty jobs like oil pan covers, timing covers or valve covers. The jumbo wedge is 14" in length and 2" wide, making it perfect for the big jobs.

MW01  orange wedges, soft – set of 3.......................... 1.49 ea
MW02  black wedges, hard – set of 3.......................... 1.49 ea
MW03  both wedges, soft and hard (set of 6).................. 1.49 ea
MW04  jumbo wedge............................................. 1.49 ea

Soft Duty – Delicate prying or wedging
Med. Duty – Sturdy prying or wedging
Heavy Duty – Very strong and durable

Prying And Scraping Tools
Available in 3 different fiberglass reinforced plastics, the soft duty tools are good for jobs where a minimum amount of force is needed to remove objects. The medium duty tools are better for the objects that require a little more force to remove, and the heavy-duty tools are for the objects that are real stubborn and just do not want to be separated from their current position. All these tools are strong enough to pry yet soft enough not to damage. With 7 tips to choose from: 3 pry bars, 2 wedge tools, a wedge puller and a sticker/gasket scraper, they can do various interior and exterior automotive jobs without the damage that metal tools can do. No chipping paint or tearing fabric. No toolbox should be without these great tools.

X2290-70 .......................... 3.99 ea
Blaircutters provide fast, accurate holes in materials up to 3/16" thick. Unlike hole saws, that rip and tear through the material, these cutters provide a quality, virtually burr-free hole. Available in seven sizes for 1/4" and larger drill chucks. Spring loaded pilot "pops" the slug from the cutter. Buy the set and save! Set includes all cutters, arbor and 3 extra pilots.

**Premium Spotweld Cutters**

When you have a lot of spotwelds to remove, step up to the premium spotweld cutters for longer life in today’s high-strength body steels. These cutters have a heavier wall (0.90") for extreme durability and a two-step geometry that splits the chips and helps clear them. Premium spotweld cutters have a fast cutting action and lasts for hundreds of spotwelds. They are for use in 3/8" or larger drill chucks. The spotweld cutters are available individually or in sets containing arbor, 3 cutters, your choice of 2 skip-proof or 2 standard pilots.

**Spotweld Cutter Set**

11096 w/skip-proof pilot 49.99 ea
11094 standard 28.99 ea

**Replacement Parts for 11093**

11123 arbor 24.99 ea
11097 pilot – 3 piece 15.99 set
111083 cutters – 3 piece 28.99 set

**Blair Holcutter**

Holcutters are not hole saws. They can produce holes 3 times faster and cleaner than hole saws in sheet metal up to 1/8" thick and have a dramatically extended tool life. Holcutter produce holes from 11/16" up to 3" diameter in sheet metal, rubber, gasket or fiber materials, and some plastics. Ideal for aftermarket installations, custom fabrication, trailers, or gauge installation. Arbor fits 3/8" drill chucks. Holcutter have a new, patented Quad-Lead Thread System for quick cutter changes. Buy the set and save! Holcutter set includes: arbor, washer, extra pilot and the following sizes of cutters, 7/8", 1-1/8", 1-3/8", 1-1/4", 1-3/4", 2" and 2-1/2".

**Holcutter Set**

140061 186.99 set

**Blair Hole Cutters**

Convenient 1.68 oz. tube is ideal for all Blair hole cutters. Softer than standard stick lubricants, it provides superior adhesion to the tool and can be used in place of cutting fluids on ferrous and nonferrous metals to increase tool life, improve cutting performance and easier slug removal.

Stick Lubricant

11750 1.68 oz. 5.99 ea

**Rotabroach Cutters**

Rotabroach annular cutters are ideal for sheet metal fabrication. Paintless Dent Removal and for cutting rustproofing access holes without clogging. Unlike hole saws and twist drills that push and tear through materials, these cutters will make hundreds of holes in steel, sheet metal or plastics up to 1/2" thick with no deformation of stock, jagged edges or out-of-round holes. Arbors for Rotabroach cutters fit 3/8" and 1/2" hand held drill chucks and use either spring loaded pilots or skip-proof pilots which eliminate pre-drilling operations. Each set includes: arbor, hex wrench, center punch, extra pilot, and a variety of cutters as listed.

**Rotabroach Cutter Set**

11007 arbor with 11356 cutter 52.99 ea

**Rotabroach Replacement Cutters**

Replacement cutters for Rotabroach cutter set. Available in a 3 pack or as individual cutters in a variety of sizes.

Weld-Thru™ Steel Bodies Make Patching Metal Obsolete!

These Weld-Thru™ bodies are the ultimate in 1955-57 Chevrolet restoration. If your body is rusted beyond individual panel replacement, these reproduction skeleton assemblies are for you. Hardtop and convertible panels are full one-piece units with integral door jamb, as original, and all skeletons are manufactured using correct gauge steel with 25% more spot welds than factory. Each body is delivered in silver weld-through primer to minimize preparation time, eliminate corrosion problems between overlapped panels, and provide better welding characteristics. Compatible with original and aftermarket frames, mechanical components, and body trim. Comes with personalized Real Deal Steel body information tag. Quarter panel, door, door hinge and deck lid installation upgrades are available. Assembled in the USA.

Note: Special order, must be prepaid. Shipped truck freight.

- Floor and Trunk Pan with Braces
- Inner and Outer Rocker Panels
- Inner Quarter and Wheelhouse Assemblies
- Trunk Hinges
- Convertible Windshield Frame

Build the Convertible You Always Wanted With The Weld-Thru™ Clipster!
This is one of the least expensive ways to achieve your dream of building a classic convertible. The Clipster is designed to weld onto the cowl and firewall of your donor car (any body style) to create a true convertible body skeleton. Available with or without quarter panels professionally installed. Finished in silver weld-through primer to minimize preparation time, eliminate corrosion problems between overlapped panels, and provide better welding characteristics.

Important: Clipster quarter panel upgrades not available separately. Must be ordered with Weld-Thru™ Convertible Clipster at time of purchase.

Note: Special order must be prepaid. Shipped truck freight.

1955-57 Convertible Rear Top Bow
Secure the convertible top of your Tri-Five Chevy by replacing the top rear bow. This bow typically rusts, often gets bent and is usually missing the fiber tack strip. This brand new rear bow is manufactured from correct gauge steel construction. No more piecing something together to hold staples and tacks! This bow will help create the best fitting and longest lasting convertible top for your classic Chevy!

Note: Shipped oversize.
TF400711 1955-57................................................................... 374.99 ea

1955-57 X-Frame Assembly
This is a 1955-57 convertible X-frame assembly. It’s made from heavy gauge metal. The mounting brackets are included and the frame assembly has been primed in black. It will serve as a direct replacement for your damaged original. Made in the USA.

Note: Shipped truck freight.
TF500362 1955-57................................................................. 949.99 ea

1955-57 Skid Plates
The convertible skid plates mount under the side rails, on the frame and provide a bit of additional rigidity. They also clean up the area where the x-member installs. Made in the USA.

Note: These are welded on the frame. Shipped oversize.

1955-56 Custom Hood Baffle

Give your 1955-56 Chevy a finishing touch with a custom billet hood baffle. Add structural support and allow better alignment between fenders without drilling any additional holes. Available for cross flow or down flow radiators, they are manufactured from 6061 T6 aircraft-grade aluminum. Baked in a Cermakrome ceramic finish which results in a chrome-like appearance or with a machined finish. Includes all mounting hardware and instructions.

1957 Hood Braces

Reproduction center hood brace for all 1957 models. Manufactured to factory specifications featuring original style shape and length. This brace is mounted to the center underside of the hood. This under hood brace goes from side to side under the hood to prevent bending and warping by providing additional strength and stability. Made in USA.

- center hood brace. | 74.99 ea |
- under hood brace. | 89.99 ea |

1957 Rear Hood Brace Screw

This is a correct clutch head style screw that is used on the rear center hood brace on all 1957 Chevy passenger cars. Washer is included.

- 1957 | 2.99 ea |

Adjustable Hood Props

Constructed of high quality aluminum and stainless steel, these hood props offer great looks and functionality. Hood prop will automatically lock itself into position. A quick release allows the hood to be opened to its max for easy engine access. Three position and six position versions allow the hood to be held up at various levels. Each level of the six position prop increases the opening of the hood by approximately 6”. Each level of the three position prop increases the opening of the hood by approximately 12”. Works great for cooling your engine in the staging lanes too!

1955-57 Inside Hood Release Conversion

Upgrade your factory hood latch with a modern style hood release assembly. This set features a bear claw latch assembly that will not release on its own. Everything necessary is included and no modifications are required, simply bolt the latch assembly, run the cable and mount your pull handle anywhere under the dash. Will fit all 1955-57 models.

1955-57 Hood Bumpers

Original style hood bumpers for 1955-57 models. Helps keep your hood aligned in the correct position.

- 1955 front and rear. | 4.49 set |
- 1955 side. | 5.99 set |
- 1956-57 adjust (round). | 2.99 pr |

Important Information Before Attempting To Install Sheet Metal!

Regarding Minor Imperfections in Panels:
The sheet metal you receive may have scratches, dings, small dents and other minor imperfections which are considered normal sheet metal characteristics due to the nature of the product. These minor imperfections will be easily corrected during the filling, priming and sanding phase of your sheet metal installation. Classic Industries® does not consider dings, scratches, minor dents or other imperfections on the sheet metal to be defects in the panel nor are they considered damaged. All sheet metal panels will require some sort of preparation and manipulation during installation. Every panel that we sell is inspected and then carefully packaged to protect against damage that may occur during transit.

Test Fit All Panels Prior to Paint and Installation:
Classic Industries® recommends test fitting all sheet metal panels prior to final paint and installation. Minor modifications including elongating mounting holes, adding additional shims, etc. are normal and may be necessary when installing sheet metal. It is important to note that hard driving conditions, like racing, can twist bodies and frames out of original tolerances. Poor body work from previous collisions can cause problems with the body structure that the panels are attached to. Some vehicles were manufactured with a unitized body (no frame) thus causing even the most minor accident to twist the body creating a situation that would cause sheet metal panel mis-alignments. Take into consideration that tolerances on classic vehicles are not nearly as exact as they are on modern vehicles. This is primarily due to the hand fitting of panels at the factory on most antique and classic cars as opposed to the robotics used in today’s modern factories. All of these factors will affect the way your new reproduction sheet metal will install and fit on the car. There is really no such thing as a direct fit body panel when it comes to older vehicles.

Returns and Defects:
Prior to returning any defective body panel or sheet metal item to Classic Industries®, please contact our customer service department. Classic Industries® will not replace a panel, nor will we be responsible for freight on returns should it be deemed that the panel is not defective. See policies for more information.

For Best Results, Hire a Professional to Install the Panels:
Classic Industries® recommends that you hire a professional paint and body technician that has the skills, knowledge and experience necessary to install the new panels on your vehicle. A professional body technician will be able to prepare the panels for installation and repair any imperfections.

When Welding Sheet Metal Products . . .
Save time when replacing sheet metal by using Classic Industries® new, innovative “Weld-Thru™” primed sheet metal products. Our all-new coating process is designed to eliminate the unnecessary process of grinding or sanding the EDP coating off to ensure a solid and rust free weld. This “Weld-Thru™” primer requires minimal preparation and eliminates corrosion problems between overlapped panels and layered spot welds. It also minimizes heat zone problems, reduces panel distortion, and allows better penetration into the dense replacement steel to compensate for the older metal's impurities. Look for the “Weld-Thru™” logo when purchasing sheet metal products to save time during installation of weld-on sheet metal repair panels.

Some Guidelines on EDP Coating
Many sheet metal products are delivered with a black electrophoretically deposited coating (EDP, or E-coat) for superior long-term corrosion protection, while others use a similar lacquer-based coating designed to provide protection for storage and shipping. Before panel installation, Classic Industries® recommends applying lacquer thinner with a shop towel to determine the type of coating. If the coating is removed by lacquer thinner, then it should be completely stripped from the product before any primer or paint is applied. If the lacquer thinner does not remove the EDP coating, it can simply be prepped, primed and painted without stripping.
Floor Panel Repair

1955-57 Full Length Floor Pan

Reproduction full length floor pans for 1955-57 models. When replacing the entire floor pan is not necessary, these pieces will replace an entire side of the floor. These pans extend from the bottom of the toe board to the rear passenger floor area.

**Note:** Shipped truck freight.

1955-57 Weld-Thru™ Floor And Trunk Pan

Reproduction of the entire floor and trunk pan for 1955-57 Chevrolet models. This floor and trunk pan assembly allows for a cleaner restoration with greater strength and a better end result when compared to a patchwork of standard repair panels. Designed to offer the restoration enthusiast the finest in OE quality while saving hours of costly body shop labor. All floors feature correct bracing and are coated in our time-saving Weld-Thru™ silver primer for rust prevention.

**Important:** The frame rails are not included with the trunk pan.

**Note:** Shipped truck freight.

Purchase the complete trunk/wheel tub set and Save...

1955-57 Custom Deep Tub Floor Components

Adding mini tubs to a vehicle that needs a complete floor pan has never been this easy! Add up to 12 inches of clearance with our custom deep tub components for 1955-57 models. Manufactured for an OE appearance while providing the added clearance needed for bigger tires. All items feature correct gauge steel, and factory style contours. The passenger floor and trunk panels come pre-notched and flanged with the spare tire well deleted. All parts are EDP coated for rust prevention, and are available as an assembly that includes front passenger area floor pan with trunk floor or just the trunk floor with mini tubs included. Trunk floor and mini tubs are also available separately.

Important: Must use rear spring pocket kit in order to achieve 13 inches of clearance. Convertible models require modification. Will not fit wagon models.
